

Info	
Date of Birth: 20-03-1991	Nazmul Hasan Peeal After earning my bachelor’s degree, I spent over two years as a freelance web developer, honing my technical skills and delivering high-quality solutions. While coding was rewarding, my passion for client interactions inspired me to focus on enhancing my soft skills. Driven by a deep interest in psychology, I’m now eager to combine my technical expertise with my enthusiasm for people in roles such as business analysis, marketing, or sales. I aim to leverage my skills to foster strong client relationships and contribute to the success of an organization.
